

Richard C. Winstead
Director of Golf Operations
Woodcrest Golf Club

May 30, 2020

Dear League officials and participants.

We are happy to now be in phase 2 of recovery from Covid-19. The most important thing to remember is we are still in complete support of making every attempt to follow the safety protocols in place at this time and we must insist that all those playing at Woodcrest do the same. All information provided to you in our last letter remains the same with the following changes.

We will be allowing 2 riders per cart. For Sanitization reasons, the player that begins the round as the driver **MUST REMAIN** the driver throughout the round and the passenger **MUST REMAIN** the passenger. When both players are in the cart, both **MUST** wear their masks or face coverings. Please know your tee time before arriving and stay at your car until 10 minutes prior. Check in at the pro shop with mask on, and then proceed to your cart. Upon completion of play park cart in sanitization station line and take your equipment and any garbage with you. Go to your car and leave in a timely fashion. No gathering of any kind will be allowed.

The Whitetail will be open to provide beverages to go as you begin your round. You will have access through the back window nearest the tavern door. A social distancing line will be noted by red tape. Make your purchase and continue to your cart and then the first or tenth tee. Please remember, the practice putting green is closed, there will be no tavern access and the kitchen remains closed at this time.

Please help us by doing your part in all of this. Follow the guidelines, and if you see someone who has forgotten the mask rule or social distance is a little close, please send a friendly reminder their way. We aren't enforcing the rules to be mean, rather we are just trying to continue the progress being made in reducing the curve and most importantly keep all as safe as possible. As always, the Staff is committed to providing outstanding friendly service and ask you to bear with us as we navigate through the new protocols together. Thank you in advance and welcome back!!

Sincerely,
Richard C. Winstead
