

Dear Season Passholders and the Golfing Public

After speaking with the state and absorbing the new restrictions to fight the virus I have made the most difficult decision to not open the restaurant for everyday business until such time as the guidelines change. We will continue when possible to do manageable outings and smaller private functions where a meal is being consumed with alcohol purchase along with following all other restrictions. This decision is devastating not only business wise but for staff and personally as well. I understand how this can dramatically effect the golfing experience but when it comes right down to it, we have no choice. We want to be part of the solution and NOT the problem.

Moving forward we are asking leagues, outings, and daily play to help us adhere to all the guidelines, both restaurant and golf course. Coolers and alcohol will not be allowed to be brought on to golf course property. There will be no tailgating or gathering of any kind at Woodcrest, in parking lot or around club house area before or after golf. Tables and chairs will have to be removed from back patio and barstools removed from bar unless we are hosting outings or private function where a meal is being consumed.

Please, please everyone must wear mask prior to teeing off and after your round. This includes around clubhouse, inside building and when you become within 6 feet of another person. If you come with 6 feet while on golf course please use mask. Only one foursome allowed on any given tee. We've temporarily lost the restaurant and I don't want to lose the golf course as well, so please, we need your help.

I personally am asking everyone to understand how difficult this is. Please don't take these changes and guidelines out on the staff and please don't put us in a position of having to continuously enforce the changes. It's not our fault. I'm asking everyone to cooperate, it's tough enough dealing with this madness on a daily basis.

When this virus started things would change almost on daily basis, a decision today would change tomorrow, I'm thinking that could possibly happen. We will definitely keep everyone posted as best we can.

I can not tell you how badly I feel about all of this. I want to take this opportunity to personally thank you in advance for your support. It means a great deal. Keep in mind things could change quickly.

Hang in there, because I'm going to,
Denise
